**Re: Village District of Eidelweiss Sand/Salt Shed, Madison, NH  
HEB Project #2010-043**

Dear Dave,

This letter has been prepared to formalize my site visit to the Village District of Eidelweiss Sand/Salt Shed in Madison, NH. On September 6, 2011, I met with you on-site to observe the reinforcement of the shed structure. Presented in this letter report are my field observations. This work was conducted in accordance with our Letter Agreement dated May 18, 2010.

The observation of the reinforcement of the shed structure is based on the our drawing titled "Reinforcement Details of the Cover-All Sand/Salt Shed located in the Village District of Eidelweiss prepared for Glen Builders, Inc." dated November 24, 2010 with the latest August 19, 2011 revisions. Based on my observations it appears that the repairs have been completed in accordance with the above mentioned drawing.

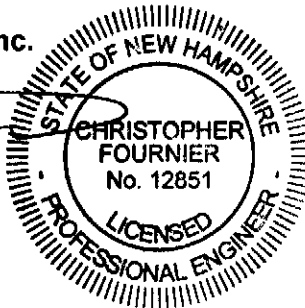

**Disclaimer:**

The opinions and recommendations contained in this report are based on information provided by the Glen Builders, on a "walk-through" field investigation performed as part of this work, and on information provided by other parties. No materials testing was performed. This report does not address any other part of the structure other than those mentioned, nor does it provide any warranty, either express or implied.

Should you have any additional questions or comments about this report or if HEB can be of additional service, please don't hesitate to contact me at (603) 356-6936.

Sincerely,  
**H.E. Bergeron Engineers, Inc.**

  
Christopher R. Fournier, P.E.
